# Custer Gallatin Forest Plan Revision Public Engagement

*To sustain the health, diversity and productivity of the Nation's forests and grasslands to meet the needs of present and future generations.*

## How can I participate?

Approximately 350,000 people call the communities around the Custer Gallatin home. We live, work and play in the surrounding landscape.

Forest Plan Revision is an open and collaborative process. Opportunities will exist to:

- ❖ Offer knowledge and data pertinent to Forest Planning,
- ❖ Share perspectives and discuss what works in the Forest plans and what needs improvement.
- ❖ Help fill the picture of what best available science includes,
- ❖ Work side-by-side with forest specialists, colleagues, working group members and interested individuals with varying ideas to find common ground.
- ❖ Learn about all the components of a Forest Plan.

Public participation is interwoven into the Forest Plan Revision effort.
